EDUCATION

Diploma in Electronic
Engineering (Computer)

Politeknik Merlimau

CGPA 3.79
2022-2024

SPM (Pure Science)

SMK Malim, Melaka

2016 - 2020

HARD SKILLS

- PCB Design (KiCad & Altium)
- Electronics Schematic Design
- PCB troubleshooting
- PCB soldering (SMD & THT)
- Electronic Instrumentation Skill
- Embedded C, C++ Programming
- IoT Products Development Skills
- Project Management
- Microsoft Words, Excel skill

SOFT SKILLS

- Self-learning Skill
- Written and Communication Skills
- Leadership Skill

LANGUAGE

- Malay
- English

PERSONAL SUMMARY

Hobbyist PCB designer with practical experience in KiCad and Altium for schematic capture and PCB layout, complemented by soldering and troubleshooting skills. Proficient in datasheet analysis, component selection, and PCB routing, including basic differential pair tuning. Self-motivated and fast learner, with personal hardware projects showcased in an online portfolio.

WORK EXPERIENCE

December 2024 - present

Full-time (1-year contract, extended)

Assistant Engineer @ iRadar Sdn Bhd

- PCB troubleshooting
- Assisting PCB design for IoT products
- Assisting Automation machinery wiring development
- Automation machinery wiring hands-on skill

July 2024 - November 2024

Internship (5 months)

Engineering Intern @ iRadar Sdn Bhd

- Develop RS485 industrial tester software (Windows-based)
- Develop LoRa IoT products (Embedded C programming)
- Developing electronics schematic

March 2022 - present

Freelance

Arduino Trainer/PCB Designer

- Develop and maintain electronics schematic, PCB and IoT products
- Personal coaching programming and electronic circuit building

ACHIEVEMENTS/CERTIFICATIONS

- Worldskills Malaysia Belia Electronics Participant Certificate (2023)
- EDIAs 32nd and PERKAYA 25th Gold (Best Innovation) Awardee
- Arcitura Certified IoT Architect (2023)
- Google Developer Skill Badges (2023)
- Chairman of JKE PMM Student Club (2024)
